I checked my files and emails and here is the last correspondence I had with HI regarding their rules. They looked to be pretty close to being ready to go. I don't know what snag they've hit that has delayed their adoption and submittal to us. Things of course have changed in regards to regulation of GHGs and they may have gone back to see how to incorporate those changes.

Hi Barry,
I apologize for this taking me awhile to get back to you. The revisions look good, I only had a couple of suggestions (see spreadsheet). I'm also attaching a copy of EPA's guidance regarding Permit extensions and a proposed 10/3/16 rulemaking changing some definitions in PSD. See also my comment.

Please feel free to give me a call if you have any questions.

Subject: Draft Rule Amendments

Hi Laura

I apologize for the long delay - please find our responses to your last comments attached for your review.

We are still working on two items:

HAR 11-60-1-1 definition of "Gas-tight"

HAR 11-60.1-9

Please let me know if you have any questions.
